PROFESSIONAL SUMMARY

Software Developer with proficiency in Java, Python, C++, HTML, CSS, and JavaScript, seeking to apply programming and web development skills in real-world projects. Strong foundation in software design, debugging, testing, database management, and problem-solving, with hands-on experience on college and personal project developing full-stack applications. Can work in team with good team work.

EDUCATION

BACHELOR IN COMPUTER ENGINEERING — 76.59 Percentage — 2023-2027
A.C Patil College of Enginnering ,Kharghar

HIGHER SECONDARY CERTIFICATE — 65.17 Percentage — 2021-2022
Guru nanak college of Art ,Science & Commerce,
GTB nagar.

SECONDARY SCHOOL CERTIFICATE — 85.20 Percentage — 2019-2020
Shree Sanatan Dharm High School,GTB nagar

TECHNICAL SKILLS & CERTIFICATIONS

- JAVA/Spring Boot
- HTML,CSS, JavaScript
- React JS
- MySQL/PostgresSQL
- Python
- REST APIs

SOFT SKILLS

- Communication
- Problem Solving
- Team Work

PROJECTS

DEVHUB

Developed a full-stack platform using React, TypeScript, Spring Boot, PostgreSQL, and Docker for reusable, production-ready software modules.

- Designed to reduce repetitive development, standardize common features, and accelerate application development.
- Help user reduce repetitive task and save time.

AIRDASH-LOCAL FILE SHARING APP

Developed an Android application using Kotlin/Java, NanoHTTPD, mDNS, QR codes, and local network communication for secure device-to-device file sharing without requiring internet connectivity.

- Enables users to browse, upload, download, and transfer files through a web browser without installing the app on the receiving device also protect user privacy by not sharing data through local network only.

CERTIFICATES

- Completed NPTEL Course Programming With AI
- Completed Udemy Course Java Spring Framework,Spring Boot,Spring AI-Gen AI – by Telusko
